## Smart Tech E-Commerce Website

---

#  Product Requirements Document (PRD)

## Product Name

\*Smart Tech E-Commerce Website\*

## 1. Overview

The \*Smart Tech E-Commerce Website\* is a modern web-based platform that allows users to securely log in using \*Face Recognition\* and purchase IT-related products such as laptops, cameras, keyboards, mice, and accessories.

---

---

The system is designed as a \*client-side application\* where all user data, product data, and order information are stored in the \*browser's Local Storage\*, making it lightweight and suitable for demos, learning projects, and offline-first use cases.

An \*Admin Dashboard\* is included to manage products, users, and orders.

## ## 2. Goals & Objectives

- \* Provide a \*secure and futuristic login system\* using face recognition
- \* Enable users to \*browse and purchase IT products\* easily
- \* Implement a \*fully client-side e-commerce system\* using Local Storage
- \* Offer an \*admin panel\* for managing products and orders
- \* Deliver a \*smooth, animated, and modern UI/UX\*

## ## 3. Target Users

### ### 3.1 End Users (Customers)

- \* Tech buyers
- \* Students and developers
- \* Users interested in smart authentication systems

---

### ### 3.2 Admin Users

- \* Website owner
- \* Product manager
- \* Demo presenter / instructor

## ## 4. Key Features

### ### 4.1 Face Recognition Login & Registration

- \* Face capture using device camera
- \* Face data stored securely in Local Storage
- \* Face-based authentication for login
- \* Fallback option (optional): Email or PIN-based login

#### \*User Flow:\*

1. User opens the website
2. Camera permission is requested
3. Face is captured and registered
4. Face is matched during login
5. User is authenticated and redirected to the store

---

---

### ### 4.2 User Authentication & Profile

- \* Register using face recognition
- \* Auto-login after successful face match
- \* User profile data stored in Local Storage
- \* Logout functionality

### ### 4.3 Product Catalog

#### \* Product categories:

- \* Laptops
- \* Cameras
- \* Keyboards
- \* Mouse
- \* Accessories

#### \* Product details:

- \* Product image
- \* Name

---

- \* Description

- \* Price

- \* Stock status

### ### 4.4 Product Search & Filter

- \* Search products by name

- \* Filter by category

- \* Sort by price (Low → High, High → Low)

### ### 4.5 Shopping Cart

- \* Add to cart

- \* Update quantity

- \* Remove items

- \* Cart data saved in Local Storage

- \* Cart persists after page refresh

### ### 4.6 Checkout & Order Management

- \* Order summary page

- \* Confirm order button

- \* Order data stored in Local Storage

- \* No online payment (demo/offline mode)

---

---

### ### 4.7 Admin Dashboard

#### \*Admin Authentication:\*

- \* Admin login (face recognition or predefined credentials)

#### \*Admin Features:\*

- \* Add new products

- \* Edit product details

- \* Delete products

- \* Manage product categories

- \* View all orders

- \* View registered users

- \* Control product availability

## ## 5. Functional Requirements

### ### User Side

- \* Face recognition must work on supported browsers

- \* Users must be able to register and log in

- \* Products must load from Local Storage

---

- \* Cart and order data must persist

### ### Admin Side

- \* Admin can perform CRUD operations on products

- \* Admin can view orders and users

- \* Changes reflect instantly on user UI

## ## 6. Non-Functional Requirements

- \* Responsive design (Mobile, Tablet, Desktop)

- \* Smooth animations and transitions

- \* Fast load time (client-side only)

- \* Browser compatibility (Chrome, Edge, Firefox)

- \* Secure handling of face data (no server upload)

---

## ## 7. Tech Stack

### ### Frontend

- \* \*React JS\* – Component-based UI
- \* \*Tailwind CSS\* – Utility-first styling
- \* \*Shadcn UI\* – Prebuilt UI components
- \* \*Framer Motion\* – Page and component animations
- \* \*GSAP\* – Advanced animations

### ### Storage

- \* \*Browser Local Storage\*

## ## 8. Data Storage Structure (Local Storage)

- \* users – Registered user face data & profiles
- \* products – Product list and details
- \* cart – User cart data
- \* orders – Order history
- \* admin – Admin credentials

---

---

## ## 9. User Flow Diagram (Textual)

1. Landing Page
  2. Face Login / Registration
  3. Home Page (Product Listing)
  4. Product Details
  5. Add to Cart
  6. Checkout
  7. Order Confirmation
- 

## ## 10. Admin Flow

1. Admin Login
  2. Dashboard Overview
  3. Product Management
  4. Order & User Management
